2024 Brand Guidelines

I.

Logo.

Brand Logo

Since the brand's creation in 2005, the Face Reality® logo has continued to subtly evolve with the development and growth of the brand. The updated water drop icon exemplifies our placement within the intersection of contemporary and clinical skincare. When using the Face Reality logo, the registered icon must be used. For print and editorial collateral, the first instance of the brand name must include the registered icon.

Logo Color Variants

The Face Reality® logo is to be used in the default color (PMS Cool Gray 11C) on all assets, whenever possible. If the design permits, colored logo in PMS 8200C can be used as well. The logo may be used in black or white on image overlays or where the design requires it (where the full color is not clear or visible).

Incorrect Logo Usage

The Face Reality® logo must maintain a consistent appearance in all communications. In order to preserve the integrity of the logo, these examples illustrate how it cannot be used. These rules apply to all.

The Face Reality logo is shown in a magenta color, which is not the brand's official color.

DO NOT CHANGE LOGO COLOR

The Face Reality logo is shown rotated diagonally, which is not the brand's official orientation.

DO NOT ROTATE THE LOGO

The Face Reality logo is shown with a soft drop shadow, which is not the brand's official appearance.

DO NOT USE ADDITIONAL EFFECTS
(DROP SHADOW, GLOW, ETC.)

The Face Reality logo is shown stretched horizontally and vertically, which is not the brand's official proportions.

DO NOT STRETCH OR DISTORT LOGO

The Face Reality logo is shown overlaid on a complex, abstract teal background, which is not the brand's official presentation.

DO NOT PUT THE LOGO OVER
COMPLEX BACKGROUNDS

The Face Reality logo is shown in a dark gray color on a dark gray background, which is not the brand's official appearance.

ALWAYS MAKE SURE THAT THE LOGO
HAS HIGH CONTRAST AND VISIBILITY

Logo Lock-up

When using the logo with the water drop element, the proportions should always be followed. And the color of the logo + water drop element be the same color, unless silver foil is used for the drop. When using the Face Reality® logo lockup, the logo must appear as pictured. The logo can not be broken up and must always remain on one line. Additionally, whenever using the Face Reality logo, the registered icon must be used. For print and editorial collateral, the first instance of the brand name must include the registered icon. The icon is not required in subsequent mentions of the brand (per article, etc.).
