#### 01 · THE SCIENCE

“No two skins age, scar, or respond the same way.”

That's the whole case for PRF — a treatment built to be layered in, not booked alone.

#### HOW IT'S MADE

- **Drawn** — a small blood sample, taken chairside
- **Spun** — concentrates platelets, growth factors, fibrin
- **Applied** — to the skin's surface during an eligible microneedling treatment. Not injected.
- **Same-day** — added to your plan the day it's drawn

Eligibility confirmed by your provider.

#### PRF · REGENERATIVE THERAPY

## One treatment. Endless pairings.

Your skin isn't like anyone else's. Neither is your plan.

MEDICAL AESTHETICS. THOUGHTFULLY PRACTICED.

## 02 · PAIRING · TONE & LIGHT

# PRF + Lumecca IPL

*Correct the tone. Feed the recovery.*

Lumecca is broad-spectrum IPL, aimed at uneven tone, visible sun damage, and redness-prone skin. Layer topical PRF into the same plan and your skin gets regenerative support exactly when it's already working hardest to renew itself.

*Two treatments, aimed at the same result, from two different directions.*

## 03 · PAIRING · TEXTURE & SCARRING

# PRF + Morpheus8

*Open the channel. Fill it with regeneration.*

- RF microneedling built for texture, acne scarring, and stretch marks
- Opens a controlled network of micro-channels across the treatment area
- PRF is layered on right behind it, same visit
- One regenerative plan, built around what your skin actually needs

*Individual results vary.*

## 04 · BUILD YOUR PLAN

# PRF plays well with everything.

- 01 **Prep**  
Dermaplaning — a smoother surface to build on.
- 02 **Resurface**  
Microneedling, Morpheus8, or Lumecca — matched to your skin.
- 03 **Regenerate**  
Topical PRF, layered in the same visit.
- 04 **Finish**  
Glo2Facial or BioRePeel, added for a deeper reset.

*Most clients build a plan of three or more. Tell us your skin — we'll build yours.*
